Foot and Ankle Associates Contract for EPAT Therapy

EPAT (Extracorporeal Pulse Activation Technology) is a completely non-invasive treatment with no dangerous side effects. EPAT is proprietary technology that uses acoustic pressure waves to activate biologic and angiogenic responses. This means that it promotes new vascularization of injured tissue, helping to restore the body's normal healing processes and tissue regeneration.

INDICATIONS FOR EPAT SHOCKWAVE THERAPY IN THE LOWER EXTREMITY INCLUDE BUT ARE NOT LIMITED TO:

- Achilles tendinitis / tendinosis
- Plantar fasciitis/ Heel spur syndrome
- Peroneal Tendonitis, Posterior Tibial Tendonitis and Capsulitis
- Fracture non-union / delayed-union
- Shin splints
- Stress fracture
- Muscle strains / cramps / spasms
- Myofascial trigger points
- Neuroma pain
- Joint pain

Treatments are recommended to include 3 sessions consecutively over a 3-4 week span. The cost for the series of treatments is **\$450**. Office visits are billed to insurance and co-payments for office visits will be due at the time of service. Any medical supplies dispensed at time of treatment are in addition to the treatments and will be billed to patients insurance and paid per insurance contract. Treatment to a second site or other foot at time of same treatment will be discounted 50% (**\$225**).

Unfortunately, EPAT therapy is not a covered benefit by insurance companies therefore payment in full is due at the time of the 1st treatment.

I, _____ agree to the terms of the contract and understand that there are no promises or guarantees; that any and all pain will be eliminated with EPAT treatments.
